

# The Herrington Report

January 14-18

## **Class Wikispace Webpage**

<http://armstrong-herrington.wikispaces.com/>

The Wikispace has lots of good information for this week's topics. We're starting Adaptation, Natural Selection, Genetic Engineering and Selective Breeding. Check out the website for videos, tutorials, interactive sites and games on the topics covered in class.

If you miss class, the classroom website is a great place for you to catch up.

## **Quiz on Friday, January 18!!!!!!!**

There will be a quiz this Friday on Cells, Viruses, Adaptation, Selective Breeding and Genetic Engineering. Use your notes taken so far to study for this quiz. I'll be going over some specifics for you at the first part of the week. This quiz will be a formative grade and is being given to better prepare you for the Unit test.

## **Centers:**

This week we will be starting center rotations. These rotations are approximately 15 minute activities that you complete within the time allotted. Some of these are project based centers, while others are smaller tasks, such as working on vocabulary.

## **Example Centers:**

- Vocabulary Matching
- SMARTboard
- Computers
- Whiteboard Practice
- Reading Articles on Topics and Answering Questions
- Webquests
- Small Labs for your Group to Complete
